

Reflects Fashion & Function.

Enhance your brand's identity with Insta's coveted InstaGlo™ custom heat transfers. This reflective transfer allows you to add both decorative and functional elements to occupational work wear, consumer active wear, gym bags, hats, wristbands, headbands and other performance fabrics. InstaGlo™ has great stretchability, detail, reflectivity, and performs well in the wash. When you want brilliance, InstaGlo™ outshines the competition.

Enhance Safety with a Simple Process.

Adding an InstaGlo™ reflective heat transfer to your garment is simple. Send us your logo or decorative graphic and we will send you the finished transfers, ready to be applied with a quality Insta heat press machine. Excess transfers can be stored and applied on an as-needed basis. Application is quick and easy.

- Heat transfers should be stored in original packaging until ready for use.
- Store away from direct heat, sunlight and high humidity.
- Shelf life: Six months from date of shipment.

Heat Transfer Limited Warranty

11.2023

All statements, technical information and recommendations concerning products or samples provided by Insta are based upon tests believed to be reliable but do not constitute a guarantee or warranty.

Since the conditions under which Insta's heat transfer products may be applied to garments and other products are beyond its control Insta assumes no liability for the results obtained during and from transfer application process to the garment fabric or otherwise. It is the customers responsibility to independently determine, prior to use, the suitability, finish and wash of these products for their specific applications and that the end product laundered with soaps containing bleach, or harsh detergents with bleach or bleach particles. No warranty, expressed or implied is given. Insta's liability is limited only to the purchase price of the heat transfers.

The limited warranty is further subject to the condition that the Customer notifies Insta of any defect in material or workmanship within thirty (30) days of the date of delivery. Shelf Life of transfers is six months from date of shipment, unless otherwise specified in writing. Transfers should be stored in the original packaging and in a cool, dry area away from direct sunlight at a temperature no higher than 75F (24C). The customer is financially responsible for third party testing performed by an independent lab.
